

Transdermal Film Casting Machine

Heating Cover

Production Capacity

- 1 inch X 1 inch - 50 ODF in hour

Size of Film drawn

- 100 mm width X 200 mm Length.

Coating Accuracy

- Automatic Dragger, +/- 1 to 5 μm for a 100 μm dry coating over the entire coating width

MOC Non-Contact Parts

- SS 304

MOC Contact Parts

- Aluminium

Product

- Any Aqua base or solvent base formulation.

Heater

- Heater of 1 kW is provided in the insulating box to achieve the temperature from ambient to 100 C of glass table top.

Control Panel

- Advance control panel with digital temperature controller helps to control the temperature of table top with accuracy of +/- 1 degree Celsius

Electric Accessories

- 230 V 1 Phase 50 Hz

Documents

- User Manual, Warranty Certificate

Electric Consumption

- 1 Kw

Dimension (LXWXH) in mm

- 700 (L) X 400 (W) X 300 (H) (Approx.)
